# Sage UBS

2015

Here at **Sage UBS**, our objective is to offer business solutions that make it easier for our customers to manage their business processes resulting in lower operational costs and reduced risk, leading to a more profitable and sustainable business.

This is achieved by providing quality products and services that are relevant to our customers, deployed with appropriate technology and are supported by local experts.

## Accounting & Billing

Sage UBS Accounting & Billing is the first step to computerized business. With more than 200,000 installations in Malaysia alone, we are now a household brand among Small Medium Businesses (SMBs). Many institutions of higher learning prefer Sage UBS Accounting & Billing as part of their course as it is simple to use and has comprehensive reports. This provides a continuous availability of fresh and qualified accountants for SMEs to expand their business.

The modules available in Sage UBS Accounting & Billing include:

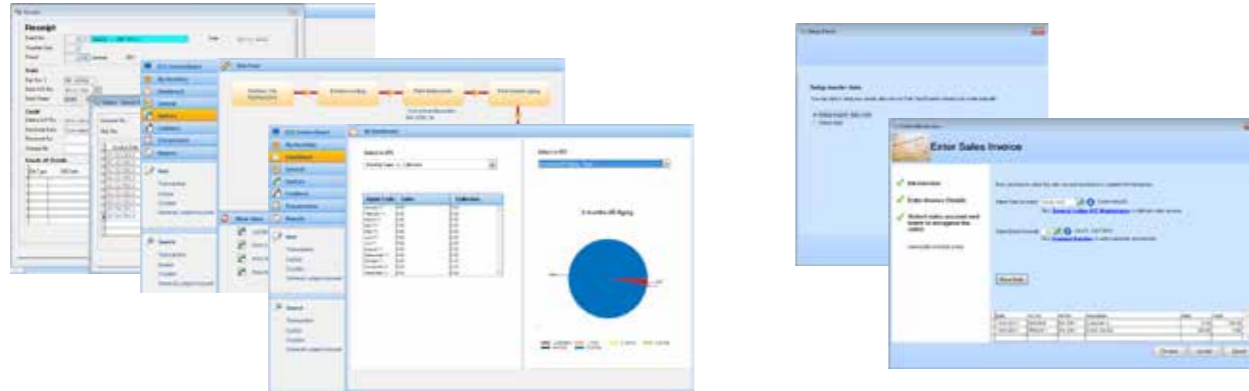

- General Ledger
- Debtors
- Creditors
- Fixed Assets

Sage UBS Accounting & Billing is suitable for most companies and businesses. Some examples are:

- Accounting Firms
- Co-operative Societies
- Construction Companies
- Manufacturing Companies
- Non-profit Organizations
- Retail
- Restaurants
- Trading Companies
- Training Institutions
- Wholesaler

## The system enables companies to work easier and more efficiently with the following features:

- Wizard Setup to enable users a quick start in the set up processes
- Task flows displayed for easy reference and direct access to the required screen
- Transaction Wizards which provide step-by-step guide to enter transactions
- Debtor Receipt & Creditor Payment screens to give user an overview of all bank balances for better cash management and the flexibility to perform offset process simultaneously

- Additional Dashboard Reports to provide easy access to critical information for better collection, fund management and business decision making
- Payment Services which serves to improve efficiency and security of your transactions
- SMS to provide flexibility on retrieving information directly from the system and sending it across to customers or suppliers with a personal message attached.

## Inventory & Billing

### Makes Inventory Management And Billing Easy, Efficient And Informative

Sage UBS Inventory & Billing makes stock control easier by putting the control back into your hands. It provides you with the flexibility to handle all types of inventory transactions and have instant updates and inventory status at your fingertips.

Sage UBS Inventory & Billing performs as an invoicing system where you can print invoices and delivery orders

Four types of stock valuation methods are included:

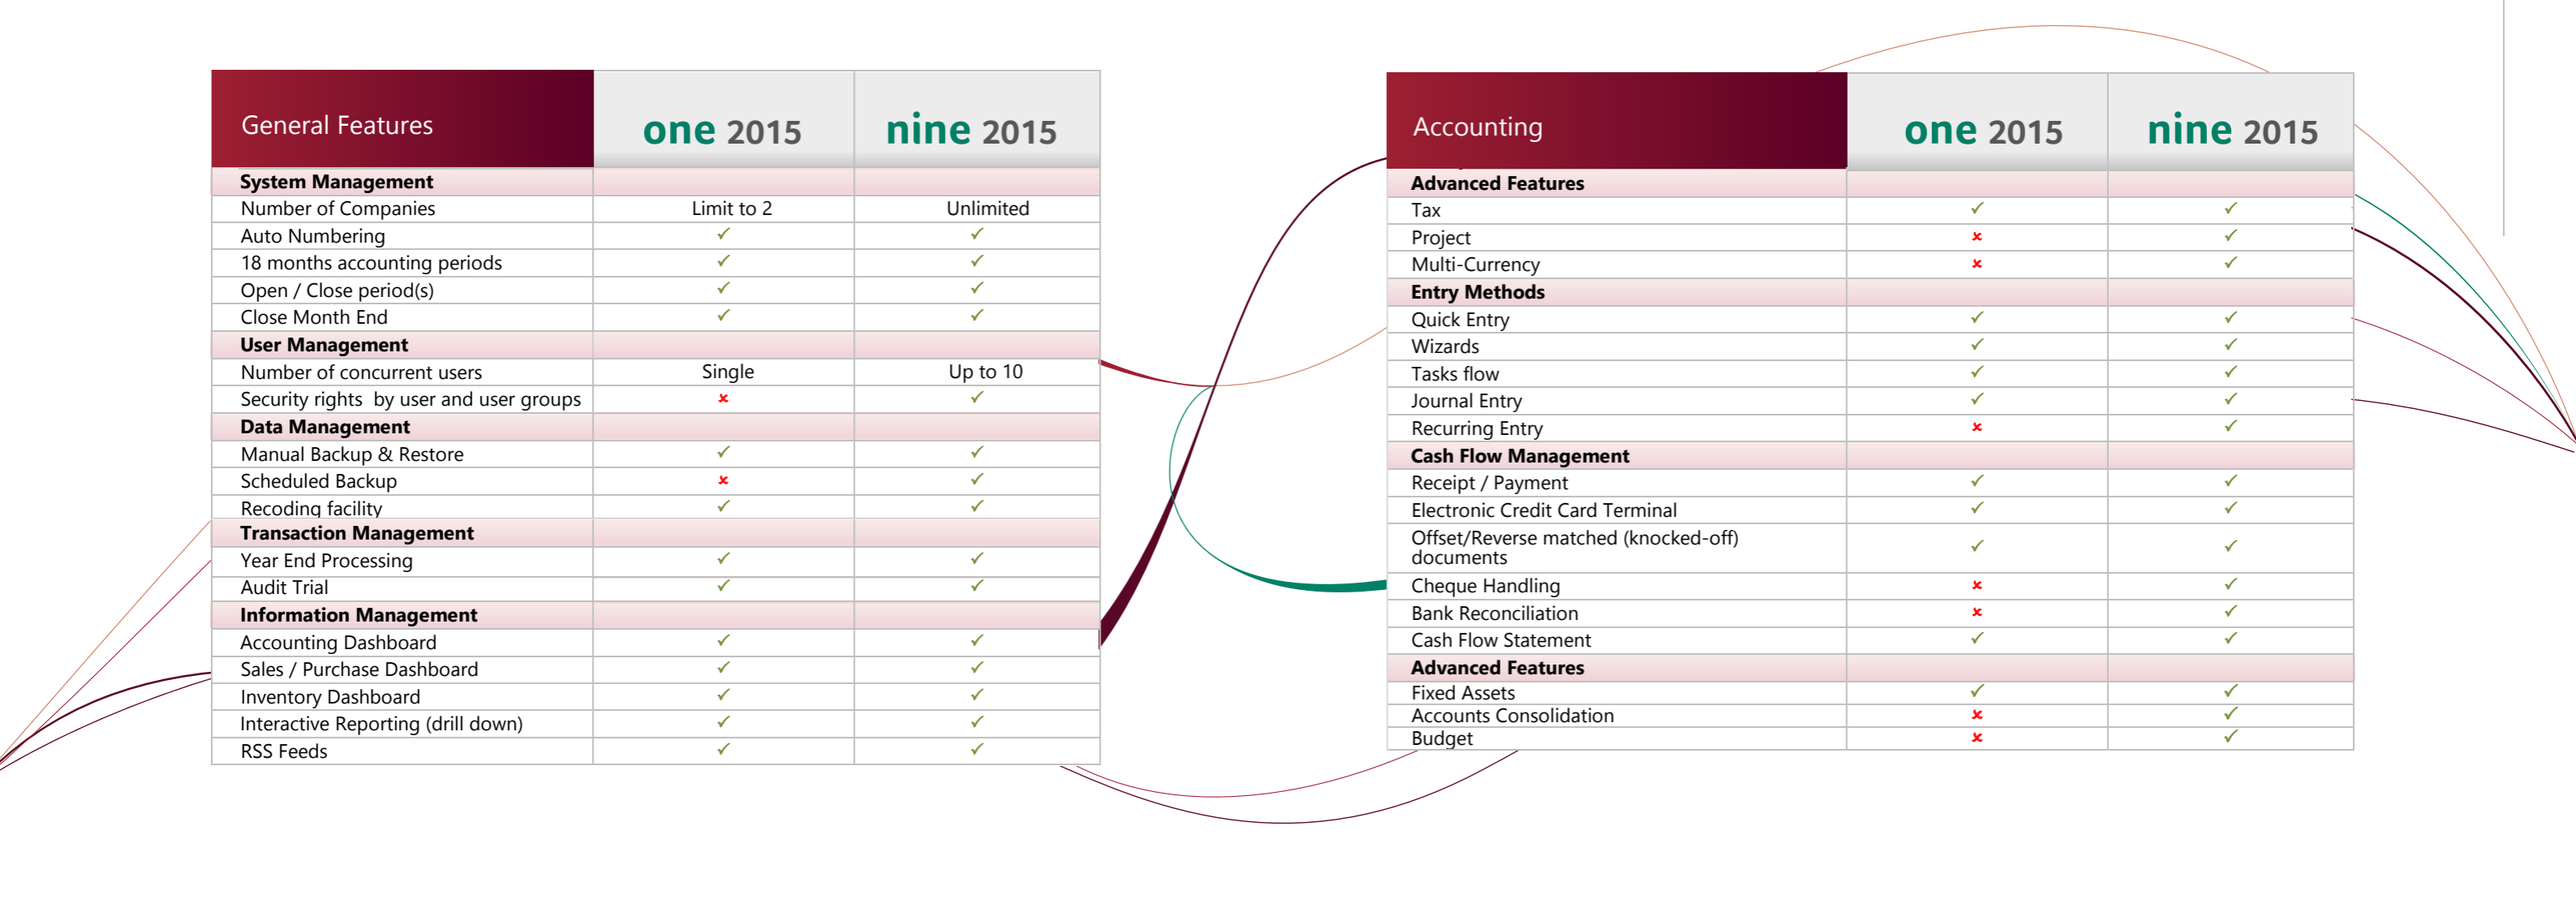

- Fixed Cost
- Monthly Average
- First-in; First-out (FIFO)
- Moving Average

The system enables companies to work easier and more efficiently with the following features:

- Wizard Setup to enable users a quick start in the set up processes
- Task flows displayed for easy reference and direct access to the required screen
- SMS to provide flexibility on retrieving information directly from the system and sending it across to customers or suppliers with personal message attached
  - Option to alert customers immediately when Delivery Order and Sales Invoice are generated

## Sage Training Centre

**Over 10,000  
certifications  
annually!**

The Sage Training Centre provides standardized and certified courses for our products as well as certification for payroll and HR job functions. Conveniently located within a stone's throw away from the transport hub of KL Sentral, our 10,000 square feet location comes equipped with the proper facilities and certified trainers.

## Why a Sage Certification?

Sage is a market leading provider of business software solutions to the SMEs worldwide, therefore a certification in a Sage product could just be the door opener to employment opportunities that you have been looking for. In addition, a certification formalizes your experience and expertise as a trained user of Sage products, increasing the value of your experience in your resumé.

You will then join a community of certified users of Sage products whom benefit from the latest updates on products and activities.

## Why a course at the Sage Training Centre?

- Small and focused classes
- Practical hands-on training
- Year-round courses available for your convenient planning
